THE WORLD ASTONISHED

AT THE WONDERFUL REVELATIONS

MADE BY THE GREAT ASTROLOGIST,

Madame H. A. PERRIGO.

She reveals secrets no mortal ever knew. She reveals to hapless ones who from doubtful events, catastrophes, crosses in love, loss of relations and friends, loss of money, etc., have become despondent. She brings together those long separated, gives information concerning absent friends or lovers, restores lost or stolen property, tells you the business you will best qualified to pursue and in what you will be most successful, enables you to marry and tells you the very day you will marry, gives you the name, character and characteristics of the person. She reads your very thoughts, and by her almost supernatural powers reveals the dark and hidden mysteries of the future. From the stars we see in the firmament, she reads the future of the nation, the position of the planets, and the time when the heavens at the time of birth, she deduces the future destiny of man. Rich, poor, noble and lowly, all are equal in her eyes. She reveals the secrets of the future, and you may never again have so favorable an opportunity. Consultation free with business and all desired information. \$1. Parties brought at a distance can consult the Madame by mail, with equal safety and satisfaction. Miscellaneous.

We state on the authority of Madam Rumer—and the old dame has been pretty truthful this far—that a conspiracy of some pretension exists in Southern Utah, to throw off the yoke of Brigham Young, and come out fairly and squarely for what these interested consider pure Mormonism. She also asserts that disaffection exists in many places in this Territory, among the saints, and that there is considerable of it here under Brigham's nose.

Numerous reasons are assigned for the growing discord: As, having to obey the voice of one man in all his dictum, or be bored to death with anathemas, or compelled to acknowledge submission. Parties who came here eighteen or twenty years ago, find their temporal advancement retarded, unless they are favorites; are required to come out with titling; to the various funds add, and be consoled with the promise of big rewards on the other side of that bourn so happily described by Shakespeare. They are beginning to ask, if that is the object of life alone, how is it that the leaders of the Church have and are acquiring Pacific Railroad stock, Telegraph stock, money in bank on both hemispheres to any amount, cotton mills, saw mills, lands, farms, houses of all kinds, to let to Gentiles even, and stock until you can't rest. Fine turn-outs for the seasons, too, are mentioned. The care manifested for the temporal welfare of children of issue, is also noticed. There is no army of occupation now, nor a great crowd of Gentiles in Utah, and the "scare" so successfully played for years past, is getting old and distasteful. The people of Utah want to be like other people in America, practice their religion with liberty and devotion, contribute much or little for the cause, as they may feel disposed or feel able, like the members of other denominational sects. In fact, they are tiring of what they deem abuses. It is a long road that has no turn.

Oh! Ho!

The attention of our saintly cotemporary is respectfully directed to the following effusion of the *Alla California* of the 18th inst., and is requested to make the most of it:

"The Westminster and the London Quarterly, for April, reviewing Horwich Dixon's book on the Mormons, both set these people, and what these were are pleased to term 'the new religion,' as American. It is true the founders of Mormonism were a American by birth; but it is so true that their church has not yet obtained any considerable number of disciples from the native Americans. Until they organized their for the missions and immigration agencies, the Mormons had no strength to speak of. It is from England, Scandinavia, Germany, Wales and Scotland, they have drawn nine-tenths of those who now make up the Mormon Church. There is not much danger that Mormonism will ever derive much strength, in numbers from native Americans. It is essentially European, but representing the lowest class of European society."

"That last sentence is 'the unkindest cut of all,' and if the *Alla* man had the *Telegraph* man in his mind's eye as he penned it, it is innumerable, unbearable, and won't be put up with. The *Alla* must be more circumspect in its statements, or distance will fall to 'land of the living dead.' The *Telegraph* will commence to throw mud at the San Francisco papers, directly!"

The Montana Post.

"This estimable journal" has been abolished—swooped from existence by "the swoop of the *Telegraph*," this morning. Its fate will be a warning to others ("dirty" as well as otherwise) to look before they leap; and to be very cautious about what they say and whom they talk about. The *Post* was a good paper, before this imprudent step, and we will sadly miss it. *Blasphemous*! See the cause of its untimely taking off in another part of the *Advertiser*. We will give our readers the *Telegraph's* crushing leader to-morrow, in its establishment of the *Post*. Read it for its logic and elegance, and pathos and wit, and—and—everything.

BY PACIFIC TELEGRAPH.

(SPECIAL TO THE "DAILY UNION TELEGRAPH.")

New York, June 22.

The *Herald's* Louisville special says, a New York National banking house recently sent out circulars, assessing all National banks one-sixteenth per cent on their capital, to form a fund to buy up Congress and defend the opposition of the monopoly. Should all the banks respond, the fund will amount to over \$2,000,000.

The *Herald's* New Orleans special says, Mr. Otterburg, just appointed Minister to Mexico, last fall, made a special journey to Washington, ostensibly to confer with the State Department, but in reality to negotiate for the recognition of Maximilian, for which it is stated he received a handsome sum from the Imperialists.

The total cost of registration in Louisiana, to the present time, amounts to \$36,000. The President has requested Gen. Sherman, by telegraph, to extend the time for registration in Alabama, till August. Gen. Sheridan proposed to close on the 10th of July. The total number of votes registered in Louisiana, up to the 10th inst., was 69,111, of which 44,779 were colored men, and 24,215 were white. This number largely exceeds the vote polled in that State at the Presidential election of 1863.

Constantinople, June 22.

The Sultan of Turkey left for Paris to-day.

Paris, June 22.

The Corps Legislatif has adjourned. The debate on reforms, was postponed by the Emperor, till November.

St. Louis, June 22.

Omaha dispatches says, Gen. Sherman arrived to-day from the North Platte. Sanborn reports the establishment of friendly relations with the Crows, and thinks troubles can be settled with all the tribes except the Cheyennes.

Gen. Angur is enroute from the Black Hills to Laramie, and would be at the latter place to-day.

A St. Joseph special says, advices from Snake River, Colorado, report the fall of five feet of snow on the 31st of May; which, with what was on the ground before, makes seven feet.

Birmingham, June 21.

The *Herald's* cable special says, the bill, which succeeded the riot of last Tuesday, continues in this city. The police are still armed with cutlasses, and five hundred special constables have been sworn in; but of these, two hundred were discharged. Murphy, the anti-popery lecturer, lectures every night. The disturbances may break out again.

London, June 21.

Queen Victoria held court in her drawing room, at Buckingham Palace, to-day.

Montpelier, June 21.

The Democratic State Convention to-day, nominated J. L. Edwards for Governor. Resolutions deploring and condemning the heavy burthens of taxation, and condemning the establishment and exercise of military power over a portion of the Union, were adopted.

Berlin, June 21.

The Constitution of the North German Confederation, having been ratified by all the States, comprising that body, will be officially promulgated on Thursday next.

London, June 21.

Advices from the continent prevent the feeling prevalent in Paris and Berlin that relations between the Emperor Napoleon and the King of Prussia is not cordial.

Hearts Content, June 22.

The repaired cable continues to work perfectly. It may be considered as reliable as though no damage had occurred. The cable was found to be crushed, notwithstanding its heavy iron armor, for a length of two hundred and twenty feet.

New York, June 22.

The President and suite left here at eight o'clock this morning for Boston. The committee had joined the party.

Boston, June 22.

The Presidential train passed the Springfield armory, and a salute was fired from the establishment. At Palmer, Worcester and all places on the route, crowds gathered round the state car and cheered, the President, who shook hands with many citizens. The train arrived at Longwood station, three miles from Boston, at 5 p. m. The party were received by the military escort, and delegations of the city authorities. Salutes were fired, and thousands of people assembled cheered repeatedly. The party was conducted to the carriages and driven through Brooklyn and Roxbury, amid the cheers of residents. Three regiments of infantry and a battalion of cavalry, also a full company of United States marines, were in line waiting to receive the President. The streets and windows were densely filled with spectators, and there was a waving of handkerchiefs from windows and balconies, and occasional cheering as the

President passed up Washington street. At the line dividing it from Boston, the President was met by Mayor Norcross. The Mayor extended to the President a cordial welcome in behalf of the principal authorities, for which the latter returned thanks, and accepted the hospitalities, so generously tendered.

Washington, June 22.

Surratt's trial made less progress to-day than usual. The whole afternoon was occupied discussing the prisoner's motion for recall of certain witnesses who had been examined and discharged. They claim they can impeach the evidence of two or three if recalled. The witnesses examined all appeared in the conspiracy trial.

New York, June 23.

The ocean sweepstakes on the New York Yacht Club takes place July 13th. Five vessels already entered. The annual regatta of the Jersey City Club occurs Wednesday and Hoboken Club on Friday.

The *Herald's* special says that it is asserted in Washington that Secretary Stanton intends to resign.

Gen. Sheridan telegraphed to Gen. Grant declining to extend the time of registration in compliance with the President's conditional instruction, on the ground that the registration was completed and he did not feel like keeping up expensive boards to suit new issues. He characterizes the Attorney General's opinion as opening a broad road to perjury and fraud to travel on, and remarks upon the President's letter antagonism to the reconstruction law. If, after this report, time is to be extended he desires to be notified and will be obeyed. He would do it at once, but the President's telegram was conditional.

Gen. Sickles has written to Senator Wilson saying that the appropriation for the expense of reconstruction was entirely inadequate and that the funds donated to his district were already absorbed. The Navy and Treasury departments have declined to assist him with funds. The full sum appropriated was one-half a million of dollars.

Capt. D. H. Bingham, of Alabama, and a staunch Unionist during the war, was dragged from bed at night, gagged, and taken to the woods, and beaten by a number of rebels.

New York, June 23.

The same honor is to be conferred upon the Sultan, who will come to England to receive it in person.

Salt Lake City, June 23.

A report from Denver says: First through coach, via Smoky Hill route, since the 12th, arrived last night. Two coaches, coming

west, were attacked on the 15th by 200 Indians five miles east of Big Timber. One passenger, one driver and one soldier wounded. The coaches and station at Big Timber were surrounded three days. One man was killed at Walker's creek, two at Grinnell station; one wounded at Deering's Wells and one at Pond creek. The stock is gone at Deering's Wells and Russell Springs. All this is on the Smoky Hill stage route.

The Indians are found to be in strong force between Three Crossings and South Pass, and have driven the repair party back. They will make another attempt to-day.

Reform or you Perish.

Our neighbors of Utah are in agony. The *Telegraph* is tormented by every allusion made to their iniquitous institutions and assumes that the same are martyr's to the prejudices of mankind, while they are, in reality, criminals before the law of God and man. It is not the Mormon people who are hated, it is their iniquitous, detestable, criminal practices; and the faith they have in historic precedents, where persecution strengthened the persecuted, will not save from sure and quick coming destruction, in this latter day, a church whose tenets are repulsive to, and a people whose whose social system is a stigma upon, the whole American people. The people of these United States recognize in the Mormons an industrious and thrifty community, who, driven from place to place for their practices, sought the shores of an island sea across a thousand miles of waste, and in the face of obstacles well nigh insurmountable, have planted a garden of beauty and fruitful plenty, and builded prosperous cities where was a desert and a solitude. They recognize in them a people practically educated to habits of economy and fortitude, with enterprise, ability and wealth. Utah will become a great and prosperous State, and Mormonism may live, but not as it is now. The government of the United States, or its people, or civilization, or Christianity will not submit to the pernicious and demoralizing institutions connected with the Mormon belief; to that hostility towards residents who do not believe in their doctrines; to the Federal government and its officers. They cannot intimidate the courts or maintain an independent government; they cannot bid defiance to the nation's laws by a system of legalized abomination, an insult to the name of marriage; they cannot import cargoes of fanatical followers from Europe and bring them across the continent to add fresh numbers to their decaying harem, and expect a government that has taken the front rank in the cause of humanity to make no effort to abolish these evils, and if undertaken now, it will be different from the Johnson fiasco of a dozen years ago. Then, Salt Lake was a wilderness away from anywhere; now, it is surrounded with populous States and Territories. If it requires a recourse to arms to enforce law, the law will be well sustained. There is just two things the Saints have to do and that right speedily, or the day of their prosperity and peace will have passed. They must abandon polygamy and come down from the status of Saints to that of American citizens, having laws, institutions and fraternal feeling in common. All their chaff about being the chosen people of God is blasphemy, and unfeeling, conceited hypocrisy, and while they are guaranteed the right to worship according to the dictates of their own consciences, they will not be permitted to disgrace American intelligence by mistaking for the "inward monitor" the lecherous propensities, without receiving a severe correction. The rebellion quashed, and reconstruction accomplished, Mormonism stands the next best chance of receiving attention at the hands of government, unless they correct their odious and disgraceful ways. — *Montana Post* 15th inst.

In a letter received by Governor Evans this morning, Bishop Simpson writes that owing to the death of his mother, on the 27th ult., and the feeble health of his aged uncle, a member of his household, he will be detained from his anticipated visit to Colorado, this summer. Bishop Ames writes the Governor that he will leave Omaha this morning, June 10th, for Colorado, to attend the conference of the Methodist Episcopal church, to meet at Colorado City on the twentieth inst. — *Denver News* of the 10th.

ACKNOWLEDGMENTS—Samuel Woodward, Esq., presented this office with four bottles of "Cham," given yesterday, and all hands toasted the Woodward family, present, and in case.

Our boys advertise for a bear. They want something to play with, to drive away the blues, and keep them out of mischief. Hope they will succeed in getting a good healthy specimen. It will be our pleasure when things go wrong on the outside, to get good natured by punching the animal with a crow bar—Idaho Statesman.

You can have the editor of the *Telegraph* for a while if you will agree to return him, with care. He is "bally" for the blues; and can stand a heap of "punching." Come over and get him, Jim!

IN REAR—The *Telegraph* is making a sorry exhibition of its temper. What is in must come out, we suppose. It is all right proper and legitimate to call its good humored contemporary a "dirty sheet," or anything else that accords with its taste, and lie about it a little; but to be harping everlastingly on a nuisance hundreds of miles away, and wearing out one of Walter Scott's monastic characters, robbing the unbridled of epithets and imprecations, to heap on an imaginary foe, don't seem to us as indicating that it is being benefited by the inspirations of the *Vindicator*. Don't do so any more! It is too stale, flat and unprofitable. People will soon begin to think that the editor's brains are like his native heather, poor by nature and impoverished by cultivation. Don't be so spiteful and become a fellow countryman as respected for his learning, piety and morals; pray don't! It looks so silly. Pattern after the *Vindicator*, and be virtuous and you will be happy.

THE MILK IN THE COCONUT.—Madam Rumor dodged into our office yesterday, nearly out of breath. The old lady was rusticated and looks hearty, and she knows a thing or two. She is "posted!" The trifling misunderstanding between President Young and Orson Pratt don't amount to anything; it is financial. Young has the best of the bargain, she thinks; but don't know, positively. The church funds in the Bank of England had been subject to Pratts' orders, and until lately, his checks were honored. Brigham shut down on Mr. Pratt an I Pratt in turn refused the bank officers that Brigham didn't own that fund; that it belonged to the Mormon Church, and that Brigham Young was not the Mormon Church. Pratt is coming home to consult the saints about the matter, and in the meantime has put a stop to the funds being removed from the bank, on any pretense whatever by Young's order. It is only a quarrel over the money and not on doctrinal points. It will be settled. So says the Madam.

A large 6 pp. Circular, giving information of the greatest importance to the young of both sexes. It teaches how the homely may become beautiful, the deformed respected, and the forsaken loved. No young lady or gentleman should fail to send their Address and receive a copy post-paid by return mail. Address P. O. Drawer 21, Troy, N. Y.

MADAME E. F. THORNTON, the great English Astrologist, Clairvoyant and Psychometrist, who has astonished the scientific classes of the Old World, has now located herself at Hudson, N. Y. Madame Thornton possesses such wonderful powers of second sight, as to enable her to impart knowledge of the greatest importance to the single or married of either sex. While in a state of trance she delineates the very features of the person you are to marry, and by the aid of an instrument of intense power, known as the Psychometre, guarantees to produce a life-like picture of the future husband or wife of the applicant, together with the date of marriage, position in life, leading traits of character, &c. This is no humbug, as thousands of testimonials can attest. She will send when desired a certified certificate or written guarantee that the picture is what it purports to be. By enclosing a small lock of hair and stating place of birth, age, disposition and complexion, and enclosing fifty cents and stamped envelope addressed to yourself, you will receive the picture and desired information by return mail. All communications are confidential. Address in confidence MADAME E. F. THORNTON, P. O. Box 223, Hudson, N. Y.

KNOW THY DESTINY.

A YOUNG LADY returning to her country home, after a sojourn of a few months in the City, was hardly recognized by her friends. In place of a coarse, rustic, flushed face, she had a soft ruby complexion of almost marble smoothness, and instead of twenty-three she really appeared but eighteen. Upon inquiry as to the cause of so great a change, she plainly told them that she used the *Circassian Balm*, and considered it an invaluable acquisition to any Lady's toilet. By its use any Lady or Gentleman can improve their personal appearance an hundred fold. It is simple in its combination, as Nature herself is simple; yet unsurpassed in its efficacy in drawing impurities from, also healing, cleansing and beautifying the skin and complexion. By its direct action on the cuticle it draws from it all its impurities, kindly healing the same, and leaving the surface as Nature intended it should be, clear, soft, smooth and beautiful. Price \$1, sent by Mail or Express, on receipt of an order by W. L. CLARK & CO., Chemists, 10 No. 3 West Fayette st., Syracuse, N. Y. The only American Agents for the sale of the same.

The Merchants' and Manufacturers' JEWELRY ASSOCIATION

Call your attention to the fact of its being the largest
and most popular Jewelry Association in the United
States. The business is and always has been con-
ducted in the most candid and honorable manner.
Our rapidly increasing trade is a sure guarantee of
the appreciation of our patrons for this method of ob-
taining rich, elegant and costly goods. The sudden
stagnation of trade in Europe, owing to the late Ger-
man war, and the recent disastrous financial crisis in
Europe, has caused the failure of a large number of
Jewelry houses in London and Paris, obliging them
to sell their goods at a great sacrifice, in some in-
stances less than one-third the cost of manufacturing.
We have lately purchased very largely of these Bank-
rupt Goods, at such extremely low prices that we can
afford to send away finer Goods, and give better
chances to draw the most valuable prices, than any
other establishment doing a similar business. OUR
AIM IS TO PLEASE, and we respectfully solicit
your patronage, as we are confident of giving the ut-
most satisfaction. During the past year we have for-
warded a number of the most valuable prizes to all
parts of the country. Those who patronize us will
receive the full value of their money, as no article on
our list is worth less than One Dollar, retail, and
there are no blanks. Parties dealing with us may
depend on having prompt returns, and the articles
drawn will be immediately sent to any address by re-
turn mail or express.

The following parties have recently drawn valuable
prizes from the Merchants' & Manufacturers' Jewelry
Association, and have kindly allowed the use of their
names:

publish no names without permission. Our patrons

venient.
